

? Questions to Ask Yourself Before Ordering ?

1. What is your label being applied to?
2. Will your label be exposed to any harsh conditions?
3. Will you be using a printer to print on the label? If so, what is the make and model?

Don't worry we'll help you find the right label for your needs.

For labels please include: label size, material requested, application or substrate information, number of colors, quantities to quote and finishing information.

For ribbons please include: size, and type of material you would like to print on and the quantity you would like us to quote.

To determine the size of your label refer to the above diagram. The width is always listed first followed by the length.
